## **DETAILED ACTION**

## Allowable Subject Matter

Claims 1 and 3-11 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

With respect to claim 1 and 10, though the prior art discloses a high transmittance module,
comprising: a transmission substrate, having a top surface and a bottom surface, said top surface
being composed of a plurality of projecting parts and a plurality of sunken parts, the top surface
has diffraction gratings composed of a plurality of projecting parts and a plurality of sunken parts
wherein said sunken part has a first sub-wavelength structure disposed thereon and said
projecting part has a second sub-wavelength structure disposed thereon, and a plurality of
collimation units, being disposed at the bottom surface of said transmission substrate
corresponding to said projecting and sunken parts of said top surface; wherein said collimation
unit is capable of collimating a light into the position of said corresponding sunken part, the prior
art of record fails to teach or suggest the aforementioned combination further comprising a light
source is arranged beneath each collimation unit for providing said light, and said light
composed of a first polarized light and a second polarized light.

With respect to claims 3-9 and 11, these claims depend on claims 1 and 10 and are allowable at least for the reasons stated supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Application/Control Number: 10/812,970

Art Unit: 2872

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Consilvio whose telephone number is (571) 272-2453. The examiner can normally be reached on Monday thru Friday, 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
